Hybrid work is here to stay. However, keeping a distributed workforce aligned and up to date can be a challenge that requires workers to constantly switch between applications and search for the latest information. With Microsoft Teams, you can equip your team with the right tools for remote collaboration.

Create a collaborative business improvement team environment in Microsoft Teams

- Stay organized with teams and channels
- Schedule and conduct team meetings
- Share and access files quickly
- Add apps in Teams to expand collaboration

So, why should you use MindGenius Online inside Microsoft Teams?

Microsoft Teams together with MindGenius provide the ideal platform to let interested parties identify, collaborate and prioritise where effort is best rewarded. Helps ensure we continually do the right things and do them right.

Create a unique workspace for you and your team to collate and develop ideas

Organize, evaluate, and prioritize according to your criteria, using a variety of powerful visual tools
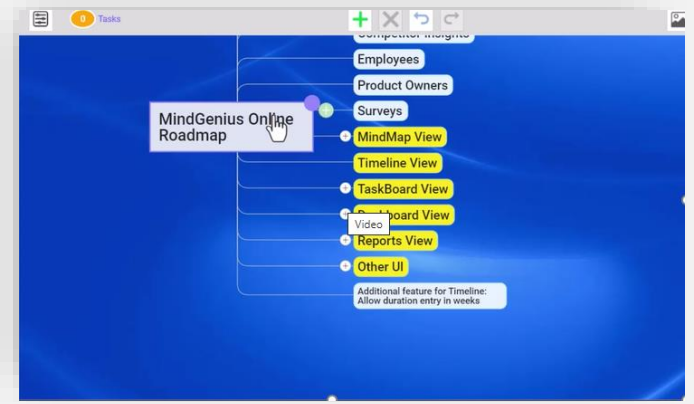

Turn ideas into actions — highlighting what's most important, what's needed when, and everyone's workload

Create a unique workspace for you and your team to collate and develop ideas

Capture ideas and information

Quickly group and order information using drag and drop

Effortlessly add new information

Organize, evaluate, and prioritize according to your criteria, using a variety of powerful visual tools

Assign categories to quickly sort and sequence the information and ideas –based on impact and difficulty (in this example)

Use the Tag Centric View to see where impact and difficulty can help you define the sequence of tasks
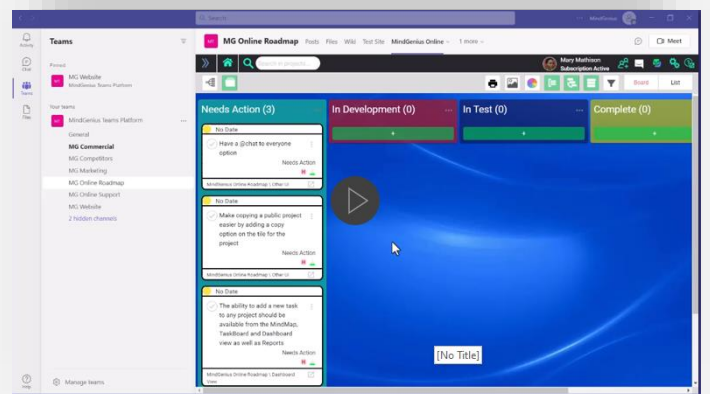

Focus on the best ideas

Turn ideas into actions — highlighting what's most important, what's needed when, and everyone's workload

Define your key process stages to ensure tasks are managed to completion

Arrange tasks by your criteria

Drag and drop tasks to track progress
