MindGenius Online for
Microsoft Teams

Why Use MindGenius Online?

Our platform allows you to create, develop and collaborate on ideas with your team in real time.

Having us as a tab in Teams will make your Teams meetings more effective and more fun to be part of.

Key Product Features – MindMap

- The **Mindmap** feature allows you and your team to collect and note down all your ideas in one centralized place.
- **Customize your mindmap** by using custom backgrounds as well as changing the font, shape and style of your branches to suit your needs.
- From the mindmap you can **create tasks and assign them dates and priorities**, and someone to complete it.

Microsoft Teams

Key Product Features – Taskboard

- **Taskboard** turns your thoughts into actions, which you can sort by importance based on a variety of filters.
- The Taskboard allows you to **see the tasks you've been assigned** and action them accordingly.
- You can **customize your taskboard** to suit you. Add/remove as many columns as you want and change the colour.
